Peace

Third Day

Peace like a river flows within me Love like a waterfall pours on me I'll never be alone, can't you see Peace like a river flows on

Hope is a fire burning in my soul Life is eternal with you Lord Who could ever ask for more Peace like a river flows on

On, thing of all I could have missed Oh, I just can't get over this

Faith is a light shining down on me Mercy is a wind blowing over me The grace of God has set me free Peace like a river flows on
