Lost like a little child Helpless as a baby I was searchin' desperately to find Someone who could save me

Then along came from out of nowhere Precious as the light of day You gave me something no one could take away Yeah, when You took my place

Chained like a prisoner
From the day that I was born
Blamed like a criminal
For the things that I'd done

Then along came from out of nowhere Precious as the light of day Well, You gave me something no one could take away Yeah, when You took my place Took my place, yeah yeah

Lost like a little child Helpless as a baby I was searchin' desperately to find Someone who could save me, yeah

Then along came from out of nowhere
Precious as the light of day
Well, You gave me something no one could take away
Yeah, when You took my place
Took my place, yeah
Oh, took my place
