

Again

Third Eye Blind

Again, again, again I want you
A rose, a rose, a rose above you

You make me wanna get it again
You make me wanna get it again

Again, again I want you
Swoon, swoon
A rose, a rose above you

You make me wanna get it again

This room so fucking hot and I like it
You've got me down for anything and I want it

Hey, you forgot your clothes, if you go I'd like to go
You've got me in a mood, that's all I need to know
I don't need to explain in a sea of grounded planes

Make me wanna, make me wanna, make me wanna get it again
You make me wanna get it again

Hey, your bluster, bluster with that big-ass swing
I get off on your life, off on your life
I want to overreact, volcanic contact
Come get off on this life

You make me wanna get it again
Again
Again, ooh
