

Red Summer Sun

Third Eye Blind

There's a big red sky over you and I
And it's coming down and we're pumping over ground
In desert air
I hope you'll be there
'Cause it's coming down
Pumping over ground
I've seen car wreck kids walk away from it
I laughed from within
I know these days will end
It's been a long time, been a long time
To walk with the mighty
I won't be the martyr
So let me go, let me go
On my own
I said it's been a long time, been a long time
To walk with the mighty
To walk with the mighty
So let me go, let me go
On my own
I'll make do with none
I will blame no one
Slept on packing foam
I'll make it all my home
I'll take on anyone
I'll take on anyone
I'll take on anyone
I'll take on anyone
I'll take on, I'll take on anyone, I'll
I'll take on anyone
I'll take on anyone
I'll take on, I'll take on anyone
I'll take on anyone
I'll take on anyone, I'll
It's been a long time, been a long time
To walk with the mighty
I won't be the martyr
So let me go, let me go
It's a long time, go
It's been a long time, been a long time
To walk with the mighty
I'm gonna walk with the mighty
Let me go, let me go
On my own
I'll take on anyone
I'll take on, I'll take on anyone
I'll take on, I'll take on anyone
I'll take on anyone, I'll
These days, they're not done
The red summer sun
