

# Time in Berlin

Third Eye Blind

We live to live  
In the city, it's a character in me  
I changed, you changed  
Someway irrevocably and

All gray light  
All the time  
I don't mind

And I'm all blissed out, I'm on the floor  
We could stay right here, we can roll some more  
In and out with you  
That time in Berlin

And I'm all  
Blissed out again  
And I'm all  
All strung out on oblivion

It seems like  
There's just three  
You in the city  
Chasing me

All gray light  
All the time  
I don't mind

And I'm all blissed out, I'm on the floor  
We could stay right here, we can roll some more  
In and out with you  
Time in Berlin

And I'm all  
Blissed out again  
And I'm all  
All strung out on oblivion

And I'm all gone  
In the feeling  
And I'm all lost  
In the feeling

And we try to hold on  
We try to keep it  
We try to hold on  
But it leaves when we leave, holding on to  
That time in Berlin

And I'm all  
Blissed out again  
And I'm all  
All strung out on oblivion
