

Grows Old

Thirdstory

Can I take your hand?
Do you understand?
You found my heart broken and
You helped me make it whole

I'm starting to feel
I've found something real
The thought of you fills me with
A warmth I've never known

Hold my heart 'til it grows old
Hold my heart 'til it grows old

Our love stays the same
Through time's endless change
I promise from now til' death
You'll never be alone

Hold my heart 'til it grows old
Hold my heart 'til it grows old

Say you'll love me
Say you'll hold me
Through the stormy weather
We'll be together always
Say you'll love me
Say you'll hold me
Through the stormy weather
We'll be together always
Always, always

Hold my heart 'til it grows old (Hold my heart)
Hold my heart 'til it grows old
Hold my heart 'til it grows old
Hold my heart 'til it grows old
