

She's All I Got

Thirsty Merc

I wake up from the darkest night
I try and find the light but
Nothing seems to help me
These clouds are always circling my head
The sky is choking on crude oil
The bleak horizon, sun and soil
A messed up haze
I turn to run
Then I see her face and

She
She knocks me off my feet
She makes me want to live again
She
She knocks me down like rain
Pouring through my heart
She's all I got

And through the dust I blink my eyes
A hurricane of open fire
She's burning on my skin
She hits me like a bullet through my brain
And its no chemical affair
I've never felt so strange
I wa a wrecking ball of hatred then
But thats all changed because

She
She knocks me off my feet
She makes me want to live again
She
She knocks me down like rain
Pouring through my heart
She's all I got

And if a man had a single chance with you
You know the lengths that I'd go to
One life and a million miles from home
I'd take you anywhere you want to go
So where you wanna go?

I've found the one
My only love
The only one I'm always thinking of

She
She knocks me off my feet
She makes me want to live again
She
She knocks me down like rain
Pouring through my heart
She's all I got
