

## I Saw Stars Disappear

Thirteen Senses

I saw stars disappear  
In the darkest hour  
I remember the voices  
Who were guiding me higher  
And I heard people calling  
To the open air  
They were dancing like children  
Surrounding me there  
And I couldn't listen  
To the sound anymore  
Carrying the way on

Eyes still out of focus  
I don't want to lose sight  
Before it's over  
I lost out too soon

I saw stars disappear  
In the darkest hour  
I remember the voices  
Who were guiding me higher  
And I heard people calling  
To the open air  
They were dancing like children  
Surrounding me there  
And I couldn't listen  
To the sound anymore  
Carrying the way on

Eyes still out of focus  
I don't want to lose sight  
Before it's over  
I lost out too soon

I saw stars disappear  
In the darkest hour  
I remember the voices  
Who were guiding me higher  
And I couldn't listen  
To the sound anymore  
Carrying the way on
