

# Change The World

## This Beautiful Republic

I'm finding it hard  
Hard to take  
Mistakes we have made  
Ignoring the ones  
That we hold dear  
Out of selfishness

All these things distract our eyes  
And steal our time

Why do we keep fighting  
But saying everything's alright?  
We all see the same things  
Why can't we stand side by side?  
United together, we can change the world

I'm learning to take the smallest steps  
And making a way  
Can You take anymore?  
Can You stand by while our world crashes down?

Why do we keep fighting  
But saying everything's alright?  
We all see the same things  
Why can't we stand side by side?  
United together, we can change the world

Be the spark,  
Forsake your pride,  
Set things right

Why do we keep fighting  
But saying everything's alright?  
We all see the same things  
Why can't we stand side by side?  
United together, we can change the world
