

# Loud

## This Century

You got something that I want from you  
You got something and I want you  
I'mma tell you what I gotta do  
I'm gonna tell you what I wanna do

And you can't hold me down

I wanna be loud  
I wanna get out  
You've got the noise  
I've got the habit  
Losing control if I have it  
I wanna be loud

Red lights and I'm black and blue  
White lies I can see through  
It's getting complicated  
Give me something, novocate it  
I can hardly take anymore

And you can't hold me down  
No, you won't hold me down

I wanna be loud  
I wanna get out  
You've got the noise  
I've got the habit  
Losing control if I have it  
I wanna be loud

You got something that I want from you  
You got something and I want you  
Nobody's gonna turn me down when I'm shouting out  
You got something that I want from you  
You got something and I want you  
Nobody's gonna turn me down when I'm shouting out

Yeah, oh yeah

I wanna be loud  
I wanna get out  
You've got the noise  
I've got the habit  
Losing control if I have it  
I wanna be loud

Hey! Hey!  
Hey! Hey!
