

Soul Sucker

This Century

You're under my skin so bad
You want to relive what we had
I got nothing for you
I ain't got nothing for you

Remember the taste of your lips
Your mouth full of poison
The deadliest kiss
I got nothing for you, for you
I ain't got nothing for you

I'm finished playing
Don't keep on saying

Give me your love, say
Give me your love
Give me your love, say
Give me your love now [x2]
Soul sucker [x3]

Back then I would give all I have
Back then it was easy, it didn't last
I got nothing for you, for you
Now I got nothing for you

I'm finished playing
Don't keep on saying

Give me your love, say
Give me your love
Give me your love, say
Give me your love now [x2]
Soul sucker [x6]

If I should tell you so
You need to let me go
It's time to draw the line
between the do's and the don'ts
So darling, realize

Give me your love, say
Give me your love
Give me your love, say
Give me your love now
(Give me your love) [x2]
Soul sucker [x9]
