

Carry Us Please

This Is the Kit

Was floundering around
And thrashing about
Pick up crap off the ground
Throw it back down

But you won't make this change
By flagging things off
Go get some ideas
Now what have you got?

What have you got?
What have you got?
What have you got?
What have you got?

So try to keep quiet
Try not to cough
Would break us apart
No, they will not

No, they will not
No, they will not
No, they will not
No, they, no, they will

But look now it's free
Started to breathe
Unfolding of wings
Carry us please

Carry us please
Carry us please
Carry us please
Carry us please
Carry us please
Carry us please
Carry us please
Carry us please
Carry us please
Carry us please
