

## Found Out

### This Is the Kit

Down you came  
Out you came  
Found your way out  
Fought your way out

There they stand, there they stand  
Two such souls  
On their own ground  
On their own ground  
On their own

Brace yourself  
Brace yourself for the next blow  
Try hard not to let go  
Ask yourself  
Ask yourself  
Hear it now  
Will you be proud of her?  
Will you be proud of her?  
Ask yourself

What do you expect when you keep it so secret?  
You carry it 'round, alone in your blood stream  
It eats at your bones, you're keeping it secret  
You carry it 'round, it burns you, it blisters

What do you expect when you keep it so secret?  
You carry it 'round, alone in your blood stream  
It eats at your bones, you're keeping it secret  
You carry it 'round, it burns you, it blisters

So speak the words  
Speak the words  
Let yourself breathe  
Deep relief  
Ask yourself

What do you expect when you keep it so secret?  
You carry it 'round, alone in your blood stream  
It eats at your bones, you're keeping it secret  
You carry it 'round, it burns you, it blisters

So speak the words  
Ask yourself  
Will you be proud of her?  
Will you be proud of her?

There they stand, there they stand  
Two such souls  
How are these people joining?  
When will these people join?  
When will they?
