

Inside Outside

This Is the Kit

Call it out again called it out again the way to go
Roll it out again rolled it out again the echo
Called it out again called it out again the way to go
Roll it out again rolled it out again the echo

All the molecules were focused on your next move
Didn't mean to move
Didn't mean for it to move you
All the molecules were focused on your next move
Didn't mean to move
Didn't mean for it to move you

Bite off as much as you can chew
I chew chew choose you

No it hasn't changed
No it cannot change us but
Seems as if it's changed
Seems as if it has changed us
Was it the outside that made it happen on the inside
Or was it the inside that made it happen on the outside

Bite off as much as you can chew
I chew chew choose you
Bite off as much as you can chew
I chew chew choose you

What did you see over there
What did you see over there
Bring it back here
Come back and be over here
Come back and be over here
What did you see
Was it the outside that made it happen on the inside
Or was it the inside that made it happen on the outside
Inside
Outside
Inside
