

(Nothing But) Blood

This Mortal Coil

should have been enough to change your mind
could have been enough to take your breath away

should have been enough to change your mind
could have been enough to take your breath away

should have been enough to change your mind
could have been enough to take your breath away

should have been enough to change your mind
could have been enough to take your breath away

should have been enough to change your mind
could have been enough to take your breath away

should have been enough to change your mind
could have been enough to take your breath away
