

Come Back Down

This Wild Life

You're like gasoline, I need you but you'll burn me
If I'm not careful
You're like nicotine, I want you but you'll hurt me
If I'm not careful
So I try desperately, to get your taste out from my teeth

I miss you so
I miss you more than you'll ever know
I wish you could just come back down
Come back down, come back down
I wish you could just come back down

Once four now we're three
There's still a piece of you with me
My heart is half full
You left so suddenly
I can't find peace falling asleep
I'll never be whole

And I miss you like hell
But you're with me every step I can tell

I miss you so
I miss you more than you'll ever know
I wish you could just come back down
Come back down, come back down
I wish you could just come back down

Don't let it slip away and decay
Decay with me
You're never coming
Don't let it slip away and decay
Decay with me
Cause you're never coming down
You're never coming back

There's a whole lot of space between me and who I wanna be
So I'll meet you in the in between

I miss you more than you'll ever know
I wish you could just come back down
Come back down, come back down
I wish you could just come back down
