Bugging Out Again

Thom Yorke

All I wanna do is hold you
Keep the dogs at bay
All I really seek is shelter
Bugging out again

All I wanna do is hold you
The troubles in the night
Trouble duplicates and takes us
And stays until the light

And all I wanna do
Is break the mould that made me
Dust inside a box
Break the mould with rocks

All I want to do now
Smothered by a night lantern
And I when I count to three
I'm where I want to be

I'm bugging out again
Spells in the night
All I want to do is hold you
Down into the night
But now I'm wondering if you really know me

Or even what it's for
All I want to do is hold you
Terrified I'll fall
That this will never end

And there's no need to pretend
I'm bugging out again
A designated shelter
If that's the only way

That's the only way
That's the only way
