

# This Conversation Is Missing Your Voice

Thom Yorke

An opportunist state of mind  
Give me something  
Give me something  
TV Eyes  
A waste of my time  
In need of some attention  
And yes I mind  
I can't handle  
Cutting from the chest down

I'm not your problem to be corrected  
How can you function with a mind ejected?

That's not right  
That's not normal  
I try forgetting the architect  
Give me something  
Vomit up  
What is my percentage?

Now I think it's my turn  
I think you should step aside  
Now I think it's my turn  
I think you should step aside

Oh, I'm not your problem to be corrected  
How can you function with a mind ejected?

Why won't you tell us what is bothering you?  
Why won't you tell us what is bothering you?  
This conversation is missing your voice

When you know it's time  
When you know it's time to go  
When you know it's time  
When you know it's time to go
