

# For Your Love

Thomas Anders

When I'm with you I shake inside  
My heart is tangled, my tongue is tight  
For I'm in love  
Like I never was before  
Convincing eyes, persuasive looks  
My heart is hard, just can't resist  
You are the one I've been always looking for

For your love  
I'll turn silver into gold  
Just to prove I will hold on to you  
Your sweet love  
Touches me deep inside  
You're my day and my night  
For your love  
(Your love)  
For your love

You know you've got a hold on me  
You know you've got me where I wanna be  
Now it's the time  
For you to give your love to me  
What do I want - good times will come  
When we make our love strong  
Together as one  
We can keep our love alive

For your love  
I'll turn silver into gold  
Just to prove I will hold on to you  
Your sweet love  
Touches me deep inside  
You're my day and my night  
For your love  
(Your love)  
For your love

What do I want good times will come  
When we make our love strong  
Together as one  
We can make our love survive

For your love  
I'll turn silver into gold  
Just to prove I will hold on to you  
Your sweet love  
Touches me deep inside  
You're my day and my night  
For your love  
(Your love)  
For your love

Now it's the time for love  
For your love  
Now it's the time for love  
For your love...  
Now it's the time for love, baby, baby, baby

For your love...  
Now it's the time for love, just for your love  
For your love...
