

Songs That Live Forever

Thomas Anders

All the songs that live-on forever
The melodies don't stop haunting you

Turn up the volume
Just a little bit more
The music sounds familiar
I've heard it all before

Yesterday's music still makes my heart swing
I can help myself ,but start to sing

All the songs that live-on forever
The melodies don't stop haunting you
All the songs that live-on forever
Bring back memories and make us new

I remember the time
When I first fell in love
It's turning me on
Can't ever get enough

All the songs that live-on forever
The melodies don't stop haunting you
All the songs that live-on forever
Bring back memories and make us new

Music has power to bring tears to your eyes
Just like magic, puts a smile back on your face
Let this song go around the globe, unite the human race
Music makes this world a better place

All the songs that live-on forever
The melodies don't stop haunting you
All the songs that live-on forever
Bring back memories and make us new

All the songs that live-on forever
The melodies don't stop haunting you
All the songs that live-on forever
Bring back memories and make us new
