

Underwear

Thomas Day

Why did you leave me there?
Why are you set on running out
Like you have to?
Did you have to?

You left your underwear
But still bought another pair
Like you really had to
Did you have to?

I'm waiting till you say
What you wanna say
Tell me why you're here
Why you had to change your tone (your tone, your tone...)
Your tone

You're telling me to love somebody else
But I'm still in love with you
You're telling me that I should fuck myself
But I'd do anything for you

I know you're terrified
But I'd stay up all night
Talking about our problems
All our problems

Drinking your cherry wine
Pushing me out of your life
Isn't gonna solve them
Gonna solve them

You're wanting me to love somebody else
But I'm still in love with you
You're wanting me to go and fuck myself
'Cause I'd do anything for you

What a thing to do
What a thing to do
What a thing to do

What a thing to do
What a thing to do
What a thing to do

What a thing to do
