

## Fade It Out

Thomas Giles

They say to be careful of what you wish for  
Give up control or beg for more

They control your writing on the wall  
I'm not myself for I'm not fine

I'll take my time and praise it's touch  
A look behind and cherish it all

Fade it out  
Don't give it up

Fade it out  
Don't give it up

I'll take my time and praise it's touch  
A look behind and cherish it all

I'll take my time and praise it's touch  
A look behind and cherish it all
