

Never Enough

Thomas Giles

My feet lifted off the pavement
A dozen roaring carnivores
A situation deserving of kindness
It's roaring head crumbles

Dissolve the danger
The spiral, goes on and on and on
It's never enough
It's never enough
It's never enough
Speak against those you know

Broken bones build a hole
It's never enough
It's never enough
It's never enough
It's never enough
One against those you know

My feet lifted off the pavement
A dozen roaring carnivores
A situation deserving of kindness
It's roaring head crumbles

Dissolve the danger
The spiral, goes on and on and on
It's never enough
It's never enough
It's never enough
Speak again those you know
(It's never enough, it's never enough, it's never enough, it's
never enough)
