

## Siphon the Bad Blood

Thomas Giles

Dont bear your neck to the wolf  
put your head underground  
Our young worship the youth  
put your hands underground  
Sink this house and get out now  
the winds come whispering in  
Sink this house and get out now  
the waves crush all within  
No one leaves this world alive  
No one leaves this world alive  
Switch off this morbid thought  
put my feet underground  
A crushing chest from the fog of time  
put my mind on the ground  
Sink this house and get out now  
the winds come whispering in  
Sink this house and get out now  
the waves crush all within  
No one leaves this world alive  
No one leaves this world alive  
No one leaves this world alive
