

# Believe

Thomas Gold

No one's got their whole life figured out  
So while you learn the ropes, can I be there to hold you now?

Let me take care of you, my dear  
You are my fantasy  
Even when you're really not sure  
Exactly where you want to be

I'll make believe in you  
Until it goes down  
'Til it all comes true  
I'll be your wishing well now  
Let me make believe in you  
We can dream it all up, you know  
I won't let you go  
'Cause I believe in you  
I believe in you  
I believe in you  
I believe in you

I believe in you

You think you're all alone  
You're always let down, let down  
In your head there's a lot of things  
You need to rest now, rest now

Let me take care of you, my dear  
You are my fantasy  
Even when you're really not sure  
Exactly where you want to be

Let me make believe in you  
We can dream it all up, you know  
I won't let you go  
'Cause I believe in you  
I believe in you  
I believe in you  
I believe in you  
I believe in you  
I believe in you

I believe in you  
I believe in you  
I believe in you  
I believe in you
