

Gold

Thomas Gold

Wake up wake up
To the sounds of my hometown
Break break up
It's time to leave can't stick around

Same old four walls
When the world is so much bigger, yeah
You say don't go, but in a way you were my trailer

Don't you know, that one day I'll be coming home
Walking down that rainbow road to my heart and soul
Yeah one day I'll be coming home
With stories that are made of gold,
Yeah they're made of gold
Yeah they're made of gold

Times have changed but I believe I'm still the same
Few more grazes but I still see sunshine through the rain
So don't you worry I'm really not that far away, no no
Cause when I see you, it'll feel like yesterday, yesterday

Don't you know, that one day I'll be coming home
Walking down that rainbow road to my heart and soul
Yeah one day I'll be coming home
With stories that are made of gold,
Yeah they're made of gold
Yeah they're made of gold

And we were never parted
Because you were always there with me
And I always there with you
Because you were always there with me
And I always there with you
Yeah they're made of gold

One day I'll be coming home
With stories that are made of gold,
Yeah they're made of gold
Yeah they're made of gold

One day I'll be coming home
With stories that are made of gold,
Yeah they're made of gold
Yeah they're made of gold

One day I'll be coming home
With stories that are made of gold,
Yeah they're made of gold
Yeah they're made of gold
