

Got To Know

Thomas Gold

I believe that there's a path
A path that will lead me to my home
A path that will lead me to the glory
A path that will show me where to go

But I've been lookin' in the wrong way
I've had my doubts but now I've changed
I see things that I never thought of
I see things that I've never known

That's what I believe
Yeah, that's what I've been told
That I could be a better man
I think I gotta know
Yeah, that's what I believe
Yeah, that's what I've been told
That I could be a better man
And I just gotta know

I will try to make you notice
I will try to let you know
That I always been dreaming
For us to settle down alone
Now, I'm longin' for the blue skies
Before I was longin' for the rain
Right now, things are lookin' better
I see things that I've never known

That's what I believe
Yeah, that's what I've been told
That I could be a better man
I think I gotta know
Yeah, that's what I believe
Yeah, that's what I've been told
That I could be a better man
And I just gotta know
Yeah, that's what I believe
Yeah, that's what I've been told
That I could be a better man
I think I gotta know
Yeah, that's what I believe
Yeah, that's what I've been told
That I could be a better man
And I just gotta know

I believe that there's a path
A path that will lead me to my home
A path that will lead me to the glory
A path that will show me where to go

That's what I believe
Yeah, that's what I've been told
That I could be a better man
I think I gotta know
Yeah, that's what I believe
Yeah, that's what I've been told
That I could be a better man

And I just gotta know
