

Someone New

Thomas Gold

Those hungry nights
The stupid fights
Do you remember?
We said forever
So beautiful
Like molten gold
You had my heart then
And I'm still burning up inside

Can't get you off my mind
See you when I close my eyes
I wonder where you are tonight
If you're alright

But I'm with someone new
I'm with someone new
I'm with someone new
I'm with someone new

I'm with someone new

Irony
It's clear to me
What got me tripping
It's what I'm missing now
I lost a piece
I'm incomplete
Try to find it
I'm getting tired

'Cause now I'm on the other side
The grass ain't greener, it's a lie
There's no better things tonight
I'm by your side

But I'm with someone new
I'm with someone new
I'm with someone new
I'm with someone new

I'm with someone new
I'm with someone new
I'm with someone new
I'm with someone new
