

# Without You

Thomas Gold

I've got a real reputation  
Come and see what I have to give  
You've got a real hesitation  
Stop me dead before I begin

You know I'm far too patient  
Open roads to a better end  
I've got a real reputation  
Come see what I have to give

Sometimes I just can't move without you  
I'm far from in the mood without you  
And I know that you are close when you are taking control  
But what else am I supposed to do  
Sometimes I just can't move  
Without you  
Without you  
Without you

Sometimes I just can't move  
Without you  
Without you  
Without you

Without you  
Without you

I've got enough said a heartbeat  
Come and see what I have to show  
You keep a kiss like a receipt  
Stop with me before letting go

Sometimes I just can't move without you  
I'm far from in the mood without you  
And I know that you are close when you are taking control  
But what else am I supposed to do  
Sometimes I just can't move  
Without you  
Without you  
Without you

Sometimes I just  
Without you

Without you  
Without you
