

Clean Me Up

Thomas Headon

Sometimes my bedsheets smell like you in the morning after
I'm left to fix it on my own when you're already home
You must've left out my window when I was sleeping
And you took my sweatshirt
Along with my feelings

My friends keep telling me that I should just probably forget you
It's not that easy when you're constantly wearing my clothes
I know the plan was just one night and act like strangers
But I told a lie
'Cause I crossed my fingers
Awesome

Perfume on the sink
And my breath still smells like drink
I can't feel my head or think
And I gotta work today
This mess is worse than what I thought
It's not just clothes thrown on the floor
I've done this too many times before
And that's why I need you to
Clean me up
And that's why I need you to
Clean me up
And that's why I need you to
I need you to

My Mum keeps telling me to get all my life together
But she doesn't know you 'cause you only arrive at night
But then you're leaving when she's waking up in the morning
I swear she'd love you
If you'd stayed for breakfast
Rough, that was rough

Perfume on the sink
And my breath still smells like drink
I can't feel my head or think
And I gotta work today
This mess is worse than what I thought
It's not just clothes thrown on the floor
I've done this too many times before
And that's why I need you to
Clean me up
And that's why I need you to
Clean me up
And that's why I need you to
I need you to
And that's why I need you to
Clean me up
And that's why I need you to
I need you

I still keep my window open for you
I still keep my bedsheets dirty 'cause of you
I still keep your perfume in the bathroom sink
And if you come back please excuse the mess
And don't touch anything
