

Grace

Thomas Headon

Grace said she likes pot plants inside
Cold hands and tea-stained cups
Brick houses and winter when it's not cold outside
Cool socks and midnight drives and
Old phones, analog clocks
Grace is the type that I will just fall in love with

But I can't be falling in love
Stop man, just fall in love
No wait, I can't fall in love
Just yet
But I wanna fall in love
But don't wanna waste it all
I'm someone who comes and goes
Like that

But I'll say sometime the time will come
When we'll cross paths and life goes on
And when that time does come
I'm gonna fall in love with Grace
I'll say sometime the time will come
Where we'll cross paths and life will go on
And when that time does come
I'm gonna fall in love with Grace

Singing "Ooh, Grace"
Singing "Ooh, Grace"

Grace said she's got a boyfriend somewhere
He likes to shout on the phone
They're always mad at each other when they're both alone
("I wanna talk to you." "Not now, later.")
I wish that I could have her
'Cause babe, you look so cool
But Grace only likes guys that are in love with her

But I can't be falling in love
Stop it, just fall in love
No wait, I can't fall in love
Just yet
But I wanna fall in love
But don't wanna waste it all
At a time where it's vulnerable
And like this

But I'll say sometime the time will come
When we'll cross paths and life goes on
And when that time does come
I wanna fall in love with Grace
I'll say sometime the time will come
When we'll cross paths and life will go on
And when that time does come
I'm gonna fall in love with Grace

Singing "Ooh Grace"
Singing "Ooh Grace"
Oo-oh

Ooh Grace
Yeah, singing
"Ooh Grace"

And that day I'm waiting for Grace
Time will pass and day will fade
Will she be patiently waiting to love me the same way?
