

Strawberry Kisses

Thomas Headon

She's got her t-shirt hanging down
To her knees where she lays down
And though her eyes don't meet mine
Her body's on me all the time

She isn't scared to make a move
She's left her handbag by her shoes
And I didn't think that she would like me
But now she wants to call me baby

I-I-I didn't think I'd end up here giving me strawberry kisses
And I-I-I didn't think she'd make it clear yet here's my strawb
erry kisses from her

Eyes open in the dark
I'm waiting for her make a mark
Although she likes to hear the silence
I say her name to make her mine (strawberry kisses)

Yeah I've been waiting for her to call
And now I'm next to her with nothing on
She's lighting cigarettes and drinking more
And now it's getting late we're moving on

I-I-I didn't think I'd end up here giving me strawberry kisses
And I-I-I didn't think she make it clear yet here's my strawber
ry kisses from her
Strawberry kisses

How long is all night if you stay here all night and
How long is all night if she'd make it clear giving me strawber
ry kisses

I-I-I didn't think I'd end up here giving me strawberry kisses
And I-I-I didn't think she'd make it clear yet here's my strawb
erry kisses from her

Strawberry kisses
Here's my strawberry strawberry kisses
Strawberry kisses
Yet here's my strawberry kisses from her
