

sunset

Thomas Headon

I'd stay til midnight if you'd let me
We'll put on new girl until we fall asleep
Cause there's nowhere to be
I'd catch feelings in a heart beat
We both said no but I think you know already
That this means something to me

Stay outside with me
Cause the sunsets coming and I don't want you to leave
Stay right here with me
Cause I like this moment and it means so much to me

I could spend all day looking at you
It sounds cliché but it's all cause I can't have you
But I think that that's on me
I'm trying not to think of you all of the time
But it's harder than I thought it was, before last night
Is it only me?

Stay outside with me
Cause the sunsets coming and I don't want you to leave
Stay right here with me
Cause I like this moment and it means so much to me

Sometimes I'm scared that we're going too fast
Cause we're a little bit more than friends
When you've got my heart
Or at least it seems

But I don't wanna slow down or stop this now
Cause we've been at yours for a week and I don't wanna come out
Don't make me come out

Stay outside with me
Cause the sunsets coming and I don't want you to leave
Stay right here with me
Cause I like this moment and it means so much to me
Cause I like you, and you mean so much to me
