

W4NNA DO

Thomas Headon

Do you guys have oat milk?

Long day, still I gotta wake up
Get here, 2AM to late bus
I'm falling asleep as we're speaking
You're calling like "stay up for me"

I bet the neighbours fucking hate us
Makes me kinda wanna take stuff
You say that you've got ahead
But what's stopping you coming again?

It's fine with me if you come back once you leave

Quite alive, quite alive
Waiting on the sun at night, sun at night
I wanna taste it all the time, all the time
Yeah, I'll be waiting on you 'cause that's all I wanna do

Quite alive, quite alive
Waiting on the sun at night, sun at night
I wanna taste it all the time, all the time
I'll be waiting on you 'cause that's all I wanna do

(Let's just do it again, I think)

Stare at a drawer full of your make up
Left you looking kind of faceless
No point in making my bed when
I know you'll be found here again

It's fine with me if you come back once you leave

Quite alive, quite alive
Waiting on the sun at night, sun at night
I wanna taste it all the time, all the time
Yeah, I'll be waiting on you 'cause that's all I wanna do

Quite alive, quite alive
Waiting on the sun at night, sun at night
I wanna taste it all the time, all the time
I'll be waiting on you 'cause that's all I wanna do

Quite alive, quite alive (that's all I wanna do)
Sun at night, sun at night (that's all I wanna do)
All the time, all the time

(That's all I wanna, that's all I wanna do)
