

## Rear View

Thomas Sanders

When I put you in the backseat of my rear view  
If you really try it  
Get to something new

Oh yeah, we woulda run like ten lights  
And you had me in your headlights

I'm thinkin' you  
And me should dance around the weather  
This perfect sun is shinin' through rain  
And if I  
Have to see you one more time  
This feeling might go away, no, oh, oh, oh

When I put you in the backseat of my rear view (oh)  
If you really try it  
Get to something new

Oh yeah, we woulda run like ten lights, no  
And you had me in your headlights, no  
(Put you in my rear view, I think you should know  
I'm just not that used to being alone)

When I put you in the backseat of my rear view  
If you really try it, get to something new, oh  
Wanna run like ten lights  
No, no, no, no  
When I put you in the backseat of my rear view  
If you really try it  
Get to something new  
When I put you in the backseat of my rear view  
If you really try it  
Get to something new
