

## All the Way

Thompson Square

I love you  
You love me  
It's cut and dry  
The way it's supposed to be  
So don't  
Shut me outside  
We got one chance  
And it's tonight

Ref.  
I'd bare my soul  
Get on my knees  
So give me you  
I'll give you me  
Let's take it  
Take it  
All the way

What we feel  
When we kiss  
Some search a lifetime  
And don't find a fire like this  
So take my hair  
Darling let it down  
And let our hearts  
Be the only sound

Ref.  
I want the sun  
And I'll take the rain  
Just to feel your hand upon my face  
You'll never want  
No you'll never need  
Cause in your eyes  
My life I see

Ref.  
Let's take it all the way

I love you  
You love me  
It's cut and dry  
The way it's supposed to be
