

# If It Takes All Night

Thompson Square

Words fly like bullets  
Each one aimed straight for the heart  
And there's no take backs  
No no no once they start  
Let's lay down our pride  
Put our anger aside  
It doesn't matter who's wrong or right

Ref.  
If it takes  
If it takes all night  
If that's what it takes  
To make this thing right  
Let's take our time  
If it takes all night

I just wanna hold you  
And kiss you until we forget  
It sounds good to me  
Why don't we put this thing to bed  
I'll fall into you  
You'll fall into me  
Oh lets make love till we lose all our strength

Ref.  
I'll fall into you  
You'll fall into me  
Oh lets make love till we lose all our strength

If it takes  
If it takes all night  
If that's what it takes  
To make this thing right  
Let's take our time  
If it takes all night

If it takes  
If it takes all night  
If that's what it takes  
To make this thing right  
Let's take our time  
If it takes all night
