

# Who Loves Who More

Thompson Square

A little house  
A solid roof  
Where our world is almost trouble proof  
But I'm heading off  
To the reason I gotta leave you waving goodbye  
It's a good job, good pay  
But a long run in a rat race  
Working overtime  
In the grit and grime  
I just can't wait to get back  
To where the issue is

CHORUS:

Who loves who more  
You say you do  
I say I do  
You say that's true  
But baby who's keeping score  
Cause I win and you win  
When it's who loves who more

The whistle blows  
I hit the road  
Stop along the way to buy roses  
I can hardly wait  
Til' the minute I can walk it in  
And see you smile  
Back at home you're cooking up  
Something that you know I love  
Baby pour the wine  
And I'll hit the lights  
Then you and me'll get tangled in a heated little battle of

CHORUS

More than I do baby  
I'm loving the way we go back and forth  
And around and  
Around

CHORUS

Who loves who  
Who loves who

(You say you do and I say I do and you say that's true but baby  
A little house, solid roof  
The worlds almost trouble proof)

Who loves who  
Who loves who  
Who loves who
