I can feel you breathing
I know you're dreaming too
And so I'd spin like sun lights too

(Hello, hello)
Coming to my way
They're coming to my way
Oh, coming to my way
You're coming to my way

It gets so dark so dark behind the wheel
Do you think I'm me? Do you call my name?
When you're riding high on your astral plane

(Hello, hello)
Coming to my way
(Hello, hello)
Coming to my way
Oh, coming to my way
Oh, coming to my way

When the wind is blowing, blows my words away
All heavenly creatures have passionate swoon

(Hello, hello)
Coming to my way
(Hello, hello)
Coming to my way, oh, oh
