

London

Thomston

Get on the next flight
I need more than one night
To bask in the limelight oh right oh right yeah

You say you're on your way
I got a room covered in your name
Ah uh
Have a little faith
We're not the defined by the last time
No way
Keeping the cards all close
To keeping the at fields bay
We can want to throw
Every last card away

And I wish you were here baby
And I wish you were here baby

Get on the next flight
I need more than one night
To bask in the limelight
Oh right oh right yeah
I know from the first sight
Because it felt like a air strike
You could make my whole life a highlight
Oh right oh right yeah

Take this thing and run
Lets see where we both end up
Ah uh
Come to London
Look at your options
Nothing can stop this
When we're walking the streets at night
Letting this feeling grow
Moving across the lines
And we're taking it all the way home

And I wish you were here baby
And I wish you were here baby

Get on the next flight
I need more than one night
To bask in the limelight
Oh right oh right yeah
I know from the first sight
Because it felt like a air strike
You could make my whole life a highlight
Oh right oh right yeah

And I wish you were here baby
I wish you were here baby
And I wish you were here baby
I wish you were here baby
