

Alive and moving  
Closer than before  
Slowly breathing  
Under the floor  
Give me all your attention  
So I can feed  
You made me real  
And that's all I need

I continue to feel  
Knowing that I'll rot  
If I was in pain  
Would you make it all stop?

A hybrid of hell  
Did you know?  
You are the inferno

I hear deafening voices  
Coming from me  
Given the power  
To control what I see  
What I am inside  
This flesh is turning blue  
Carry shards of broken hearts for you

Fall with me  
Into what never ends  
No light in our descent

Save yourself and run

I'm under your bed  
I'm in your hair  
I'm in your lungs  
When you need some air  
Don't breathe  
I'll find you

I hear deafening voices  
Coming from me  
Given the power  
To control what I see  
What I am inside  
This flesh is turning blue  
Carry shards of broken hearts for you

Don't let me close  
Don't let me close
