

# Leather Wings

Thornhill

I keep the tone  
You left the light on in me, the lighting is green  
Not in the lines, so I move with the turns  
You keep the motion I need emotion and speed won't save us all

She said I don't mind if I can fly  
Well a wick into my head  
Leather wings until I'm dead

You can fight me as much as you like  
I won't love you however you like  
You can draw me in like you want I know it's over

I feel just so cold  
You left these needles in me these needles you see won't save us all  
No you're going too fast  
I feel these pieces of me these pieces you need are thrown out

Now who's this vicious wannabe?  
Who could love you like you're falling apart?  
As I open up my eyes  
Are you satisfied?  
I'm terrified

Just shake for me tonight  
Just take the light

Watch you say I feel it  
I want you all to feel it  
I'm tangled in feeling  
I want you all to stop  
Watch my mouth  
And mean it  
When I say just admit it  
You're hungry for feeling  
I want you all to feel it

Now who's this vicious wannabe?  
Who could love you like you're falling apart?  
As I open up my eyes  
You won't survive  
In a life I don't drive

Wings of steel  
Cold neon lights  
I can't breathe anymore
