

Viper Room

Thornhill

Take me for a ride
Well take it slow
No, I will never leave your side

"Lavisher", she said
"I'll imitate your form with moves that you'll regret"
"So take me away"
Oh, take me away
No, no, no

'Cause I can be what you want
When you want more
I can make you mine
I want more
Primadonna, I'm your evermore

So gimme the cure
From the poison that's your touch
Your allure
Makes me feel like I'm enough
Will you woe?
If I go?
In the heat of passion, I won't give you the chance to
You took too long

Keep your eyes open baby
"Nobody move"

So touch my skin just right
Do you romanticize the thought out of spite?

Dare to fall in love with me
Cause I've been in the fire
Yeah I know
Oh, take me away
Oh, take me away

'Cause I can feel you calling back my name
(Come and catch me, come and come and catch me)
I'm lost in tears of scarlet so help move
I've got nothing to prove
No, no, no
Come and catch me baby come on
My dote?
I don't know
Now there's nowhere to go so come on
Come and catch me baby come on

So gimme the cure
From the poison that's your touch
Your allure
Makes me feel like I'm enough
Will you woe?
If I go?
No, your eyes won't leave my heart
