

Wake up

Humanity  
Laying waste to whatever breathes  
We sleep to escape  
And are tortured without dreams

Planting seeds in the minds of the young  
Rather than the ground you say we are one  
I don't believe you  
We don't believe you

I tried to stand up but was knocked down  
I live my day to day  
Praying for the end of it

Do you know what it's like to know the truth  
Not being able to tell it would consume you

Conserve my generation  
Conserve the air I breathe  
Conserve what life may be  
Conserve what's left of me

We are the generation  
The ones born to make this right  
Repetition leads to progress  
You're forming against the process  
We are the generation  
The ones formed to make this right  
Conserve and discover  
There's a new world yet to uncover

Promises left in the wake of a dying breed  
I won't let it consume me  
Can you feel this  
We're falling apart  
I live for the day  
For unity  
In the face of it all

I have a seen it all  
And I'm telling you now  
What happens next is so close to hell  
I have seen it now  
And what happens from here  
Will leave you breathless looking for a way out from fear

Conserve my generation  
Conserve the air I breathe  
Conserve what life may be  
Conserve what's left of me

We are the generation  
The ones born to make this right  
Repetition leads to progress  
Your forming against the process

We are the generation  
The ones formed to make this right  
Conserve and discover  
There's a new world yet to uncover

Promises left in the wake of a dying breed  
I won't let it consume me
