Thornley

So I've tried out all the pick-me-up's  
and I've sipped red whine from a dixie cup  
And I can't change, I can't change  
And I need to see thing's I've seen in  
pictures, instead of hangin' around the house  
like a mess in the kitchen  
I can't chage, I can't change.

The list of thing's I've never done  
just keeps getting longer  
I'm tired of trying to put it off until tomorrow  
This can't stay the same

Somewhere there's gotta be something  
waiting for me out there. There's gotta be  
something more to show me the list  
of thing's I've never done, just keeps  
getting longer. This has got to change

I'm in the corner of the room like a pile of dust  
I've got a voice in my head screaming,  
"This is enough" but I can't change, I can't change  
Watching TV is like a kick in the nuts, you've gotta  
be a brain surgeon or an astronaut, but I can't  
change, I can't change

The list of thing's I've never done  
just keeps getting longer  
I'm tired of trying to put it off until tomorrow  
This has got to change

Somewhere there's gotta be something  
waiting for me out there. There's gotta be

getting longer. This has got to change

Some things can't stay the same  
(Somethings got to change)
