Changes

Thornley

So I've tried out all the pick-me-up's and I've sipped red whine from a dixie cup And I can't change, I can't change And I need to see thing's I've seen in pictures, instead of hangin' around the house like a mess in the kitchen I can't chage, I can't change.

The list of thing's I've never done just keeps getting longer I'm tired of trying to put it off until tomorrow This can't stay the same

Somewhere there's gotta be something waiting for me out there. There's gotta be something more to show me the list of thing's I've never done, just keeps getting longer. This has got to change

I'm in the corner of the room like a pile of dust I've got a voice in my head screaming, "This is enough" but I can't change, I can't change Watching TV is like a kick in the nuts, you've gotta be a brain surgeon or an astronaut, but I can't change, I can't change

The list of thing's I've never done just keeps getting longer I'm tired of trying to put it off until tomorrow This has got to change

Somewhere there's gotta be something waiting for me out there. There's gotta be something more to show me the list of thing's I've never done, just keeps getting longer. This has got to change

Some things can't stay the same (Somethings got to change)

This has got to change!
