Secrets

Thornley

Empty flaps and elephants are crowding up your room
I bet you never thought that you'd be seeing me so soon
You know you'd best stop thinking that you've got one more thin
g to do
But I know the secret lies with you
Yeah, I know my secret lies with you

I've cordoned off the area somewhere in my mind
So on the surface everything appears just fine
But still you end up feeling like you're running out of time
I know what secret lies can do
Yeah, I know my secret dies with you

Up until the point when there's no more lies
You can't help but feel that you're so alive
And unless you've been there, you'd never know
Who else would know but me?

There's one last bit of dialogue just before we're through
Don't forget the promise made between me and you
Now go get busy doing what you said you'd never do
'Cause I know the secret lies with you
Yeah, I know the secret lies with you
I know the secret dies with you
I know the secret dies with you
