

Stop And Think

Thornley

I've seen submarines sink
And watched a blind girl wink
From time to time we all get weak
And it still makes me stop and think

So, all the ones that are called
When everything's stolen or stalled
You tell me who needs a drink
And it still makes me stop and think

It's beautiful, perfect, and more
Like some romantic folklore
The ship I sail will always sink
And it still makes me stop and think
So, all aboard who want to go
And it still makes me stop and think
