

Go Get It

Those Damn Crows

Success is just a state of mind
Look deep inside, it's there to find
Are you prepared to cross the line
To claim what's yours, stop wasting time
As the walls close in

Cause I know from the moment we started
Gotta know what you want
So you know what it takes
Cause I know, I believe that you got it
If you know what you want
Just go get it!

We're all so scared to start again
Failure has been my closest friend
Reach down inside, pull out the fear
Cause it holds you as it breaks you and you watch you disappear
Now the walls cave in

Cause I know from the moment we started
Gotta know what you want
So you know what it takes
Cause I know, I believe that you got it
If you know what you want
Just go get it!

Rise up from the flames (gotta know it)
Wake up to the game (gotta own it)
Win, lose, they're the same (time to show it)
Can you break down the walls
Answer the call... If you want it all!

Cause I know from the moment we started
Gotta know what you want
So you know what it takes
Cause I know, I believe that you got it
If you know what you want

Cause I know from the moment we started
Gotta know what you want
So you know what it takes
Cause I know, I believe that you got it
If you know what you want
Just go get it!
