# I Am

**Those Damn Crows**

When the world was standing still
I lost the battle, lost the will
As it all breaks down, can't we start again?

Now we're failing by the hour
All the lunatics in power
They're loaded up with blood on their hands

Missing a battle, which one should he take?
Counting the money and dollars they make
Kissing the bag, watching the flames
How much is there, man, while this remains?

Affection the curse that will only divide
Abandon your heart as you're led by your pride
We're running in circles, a part of the show
All I have is all I need to know

I am who I am, take me as I am
Counting all the chaos in my life
I am who I am, take me as I am
Counting all the chaos in my life

Take a step back, take the hit
All the critics talking shit
Control and delete, can't we start again?

You're the architect of life
Build your world as you see it right
Start living for them, start living for you

We are divine, so the battle is won
Always inside as we stare at the sun
All universe are only the same
Precious stones cut in different ways

I am a valley below and behold
If you're at the peak, then there's nowhere to go
The peace is eternal, I sit in the mud
It's all we really need to watch as we rise

I am who I am, take me as I am
Counting all the chaos in my life
I am who I am, take me as I am
Counting all the chaos in my life

We seem to repeat what we never repair
We're waiting for answers but God isn't there
Even the fight, even the games
Tear myself apart is what I know

All I have is all I need to know
I am who I am, take me as I am
All I have is all I need to know

I am who I am, take me as I am
Counting all the chaos in my life

I am who I am, take me as I am

Counting all the chaos in my life
Take me as I am, take me as I am
